The Power of using pedigree Simmentaler & Simbra Bulls.

Our Thornham Cattle: Before!

Our Thornham Cattle: After!

Three of these Simbra heifers were bred by Conestoga Simmentaler bulls from the herd pictured on the left.

Introducing our latest Herd Sire : AGO1322 Odensim Brussouw

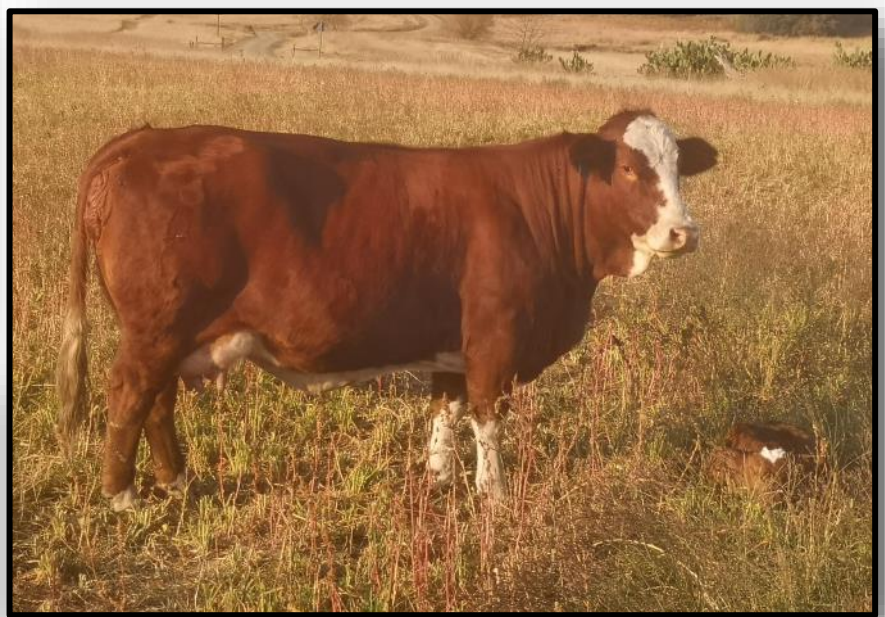

We are very excited to introduce our latest simmentaler stud sire:
Odensim Brussouw.

Brussouw hails from Adriaan and Riaans Odensim Simmentalers near Villiers in the Free State. Brussouw has 60 odd top calves at Odensim and we cannot wait for this fine bull's calves to land at Conestoga.

Brussouw's sire is the former RSA Res National Champion Erico Brussow who needs no introduction. Brussouws dam is bred from their Mahagi bloodline and boasts Odensim Paul and Ru Dev Jim in her bloodlines.

Conestoga Winter Calves 2020

Be sure to make your next herd sire a Conestoga bull!!

My Old Dad used to say:

Use only the best bulls lad, and the quality will come by itself.

Summer Calves!

Be sure to make your next herd sire a Conestoga bull!!

A blast from the past! Excelsus Simbra bulls breeding top calves.

It was with a wonderful nostalgic feeling walking around the 2019 Simbra national championships and seeing first hand the Excelsus progeny coming through for their new owners. The first Excelsus bull I saw was Excelsus El Paso adorned on the Simbra banner pictured above. We bred this beautiful bull from Excelsus Pioneer and Excelsus Purdy and he is naturally polled. Dalvan Simbras bought El Paso and showed two of his daughters at the championships. They are the top right picture and I wish they were mine. The bottom picture is of two embryo calves bred from Excelsus Icy and owned by Reggeraai Simbras of Carl Rautenbach. Icy bred two terrific stud bulls for me namely Excelsus Prairie 1 & Prairie 2 and both are breeding beautifully for Best Bull Simbras and Jamica Simbra studs respectively.

Our young Conestoga Simbra Stud is built around the Excelsus genetics.

Be sure to make your next herd sire a Conestoga bull!!

The work never stops. The old Massey Ferguson 188 got a total make-over!

Counting the Cattle with the Kids makes for some interesting photos.

Pay back time on the ranch.
